

MELANIE PERSIA | 13th Street Gallery

Hot Glass

Melanie Persia

Artist Bio

Nestled below the Niagara escarpment and amongst a Carolinian forest, Melanie has been creating her one-of-a-kind pieces for over 25 years. She studied frameworking at Sheridan College after obtaining her minor in Fine Art at the University of Guelph.

The force of nature that surrounds her is embodied in her work. Melanie's work has been described as organic, ice-like, wonky with a touch of whimsy. Like nature, she creates her work with irregularities, asymmetries or deviations from an ideal or expected form.

Melanie's work has been shown in international haute couture fashion shows, galleries across Canada and coveted by fashionistas all over the world. Pieces are constructed with the highest quality of materials, including Italian glass, sterling silver and semi-precious stones.
